# GENERAL INFORMATION AND TERMS AND CONDITIONS

**TERMS:** Cash or check (U.S. Funds)

1. Each animal will be sold to the highest bidder and the Auctioneer will settle any dispute as to bids.
2. Bulls must be paid for by purchasers before being released.
3. Each animal will be at the purchaser's risk immediately after being sold.

**MAIL BIDS:** All mail bids may be sent to the Sale Manager, Auctioneer, or Ringmen, and will be handled with strictest confidence.

**INSURANCE:** Representatives of livestock insurance companies will be present at the sale.

**REGISTRATION CERTIFICATES:** Breed registration certificates will be transferred to the buyer at the seller's expense. Please give the settling clerk the exact and complete name and address to which you wish to have your bull transferred. All registration certificates will be transferred and sent to the buyer by the seller of the bull.

**HEALTH:**

1. Bulls are sold under health regulations of the State of Michigan.
2. All bulls have been tested negative for Tuberculosis.

**ANNOUNCEMENTS:** Any announcements made from the auction stand during the sale, shall take precedence over any material printed in sale catalog.

**GUARANTEE:** All animals sold are guaranteed to be breeders, if properly cared for and not allowed to run with a herd until they are at least 15 months of age. Any bull that settles at least one third of the healthy cows he covers will be considered a breeder. Any animal not complying with any of these breeding guarantees may be returned to the farm of the seller at the buyer's expense, and if in good condition and complying with the health requirements of the seller's state, shall entitle the buyer to a satisfactory adjustment. In the case of an animal claimed to be a non-breeder, the seller shall be entitled to six months following the return of the animal in which to demonstrate that the animal is in fact a sound breeder. Michigan State University, Michigan Cattlemen's Association, Plank Farm, United Producers, or the Bull Test Committee does not assume any liability for breeding guarantee. Any items not specifically mentioned will default to standard guarantee of the respective breed association.

**Claims for refund or other adjustment:**

All claims for adjustment or refund for any reason must be made in writing within six months of the sale or three months after the purchased animal reaches the age of 18 months, whichever occurs later. The return of the full purchase price will in any case be deemed full satisfaction and settlement.

**LIABILITY:** It is clearly understood that any person or persons attending this sale do so at their own risk. The Michigan Cattlemen's Association (MCA), Michigan State University (MSU), and the Bull Test Station or their agents assume no liability, legal or otherwise, for the safety of the premises, the behavior of animals or accidents that may occur. The MCA, MSU, and Bull Test Station personnel act only in the capacity of agents in this sale. Any claims or adjustments must be made strictly between buyer and seller.

**POST SALE CARE OF BULLS:** Each bull becomes the property of the buyer when he passes through the sale ring. Arrangements may be made to board bulls at Plank Farm, post-sale, for a fee of \$2.50 per day. All bulls not being boarded must be removed from the sale facility by 12:00 p.m. Sunday, March 22, 2009.

**SALE REQUIREMENTS:**

1. Bulls must have achieved a minimum average daily gain of 3.0 lb during the 112-day test.
2. Bulls must have passed all health requirements.
3. Bulls must have passed a breeding soundness examination (see below).
4. Bulls must have passed minimum qualifications for disposition and structural soundness.

**BREEDING SOUNDNESS:** All bulls born prior to February 1, 2008 have passed a complete breeding soundness exam (BSE) as defined by the Society for Theriogenology. Bulls born between February 1, 2008 and April 30, 2008 have been subject to meeting all requirements of a BSE, except, the normal sperm morphology requirement was lowered to 50% (as compared to 70% for bulls born prior to February 1, 2008). It is recommended that bulls born between February 1, 2008 and April 30, 2008 have a complete breeding soundness exam before being placed with females to be bred.

**ULTRASOUND DATA:** Ultrasound measurements of ribeye area, rib fat, rump fat and intramuscular fat were taken on all bulls. Ultrasound measurements adjusted to 365 days of age are published in this catalog.

**ARTHROGRYPOSIS MULTIPLEX:** In the fall of 2008 a recessive genetic defect, Arthrogyrosis Multiplex (AM), was identified in some Angus cattle. The MCA Bull Test Committee required that all bulls who were identified by the American Angus or American Simmental Associations as "potential carriers" of the defect based on pedigree information be tested for this defect. ***All bulls that tested positive for AM have been eliminated from this sale.*** Bulls that have been tested free of the defect have "AMF" added to their registration number.

## HOW TO READ THIS CATALOG

Each bull in the sale has passed rigid performance standards and has a complete record like the example below.

A more complete discussion of the data that is included in this catalog can be found in the catalog supplement.

## Test Index and Sale Order

Sale order is determined by test index, regardless of age. The test index is the average of percentile rank for six EPD values (birth weight, weaning weight, yearling weight, maternal milk, %IMF, and ribeye area), and test ADG and WDA. Lower values indicate a more desirable average percentile ranking. Therefore, the bull with the lowest index value will sell first. A page with bulls listed in test index/sale order is at the back of this catalog.

## Test Index Formula

$(BW\%+WW\%+YW\%+MM\%+IMF\%+REA\%+ADG\%+WDA\%)/8$

## Across Breed EPD Adjustments

BIF provides the following adjustments to compare EPDs across breeds. The values listed in the table below should be added to the respective breed EPD to compare it to Angus EPDs.

## NOTES

## **Test Index and Sale Order**

Sale order is determined by test index, regardless of age. The test index is the average of percentile rank for six EPD values (birth weight, weaning weight, yearling weight, maternal milk, %IMF, and ribeye area), and test ADG and WDA. Lower values indicate a more desirable average percentile ranking. Therefore, the bull with the lowest index value will sell first.

## **Test Index Formula**

$$(BW\%+WW\%+YW\%+MM\%+IMF\%+REA\%+ADG\%+WDA\%)/8$$
