## **THE GOLD STANDARD IN BULL EVALUATION**

Setting the industry standard for evaluated bulls, the MCA/MSU Bull Evaluation Program follows the most current Guidelines for Uniform Beef Improvement Programs published by the Beef Improvement Federation (BIF). The BIF standardizes data collection and reporting methods, and creates greater awareness, acceptance, and usage of beef cattle performance information. The membership of BIF consists of progressive cattle producers; provincial, state, and national beef cattle improvement associations; breed associations; and AI organizations.

## **EVALUATION DIET**

Following BIF guidelines, the official evaluation period is conducted for 112 days and the ration is scientifically designed to provide levels of protein and energy to allow for expression of genetic differences in lean growth among bulls. The evaluation diet was balanced to contain 47% corn silage, 30% corn, 11% haylage, 7% supplement, and 5% corn distillers grains on a dry matter (DM) basis. Average nutrient content on a DM-basis was 12.3% crude protein and 0.52 Mcal NE<sub>g</sub>/lb. Also, in accordance with BIF guidelines, bulls are given an increased percentage of dietary forage for 5 weeks post-evaluation, along with daily exercise, to further prepare them for the breeding season and optimize reproductive performance.

## **ONLY BULLS PASSING OUR RIGID QUALIFICATIONS SELL**

- All bulls tested negative for BVD-PI and bTB.
- All bulls are non-carriers of lethal genetic defects, as identified by their breed association pedigree or confirmed by genetic testing, for which there is a DNA test available. These defects include: Arthrogyrosis Multiplex (AM), Neuropathic Hydrocephalus (NH), Contractural Arachnodactyly (CA), Osteopetrosis (OS), Tibial Hemimelia (TH), and Pulmonary Hypoplasia with Anasarca (PHA).
- Bulls were measured using ultrasound for rump fat, rib fat, ribeye area, and intramuscular fat.
- All sale bulls have passed disposition and structural soundness screening.
- All sale bulls achieved a minimum average daily gain of 2.8 lb during the 112-day evaluation.
- All sale bulls passed breeding soundness requirements (see BREEDING SOUNDNESS EXAMINATION section).

## HOW TO READ THIS CATALOG

Each bull in the sale passed rigid evaluation criteria and has a record like that below. This is what we mean when we say, "we do more, so you know more".

EPDs and percentiles are current as of March 1, 2016.

The percentile rank is the top percentile ranking of that EPD within the bull's respective breed (*i.e.* 20% = top 20% of breed).

Many of the sale bulls have had genomic (DNA) analysis performed to further increase the accuracy and reliability of their EPDs.

## EVALUATION INDEX AND SALE ORDER

The evaluation index is the average of percentile rank for six EPD values (calving ease direct, weaning weight, yearling weight, maternal milk, marbling, and ribeye area), evaluation ADG and WDA (which are calculated independently for Senior and Junior bulls). Lower values indicate a more desirable average percentile ranking, (except that milk is given no advantage when less than the 20<sup>th</sup> percentile). Sale order is determined by evaluation index, with the lowest indexing bull selling first. A listing test index (sale order) is located in the back of this catalog.

## EVALUATION INDEX FORMULA

$(CE\% + WW\% + YW\% + MM\% (\text{capped at } 20\%) + MARB\% + REA\% + ADG\% + WDA\%) / 8$

## ACROSS BREED EPD ADJUSTMENTS

Bulls of different breeds can be compared with the same EPD scale only after adding the specific adjustment factors to EPDs of the respective breeds.

**CONFUSED WHERE TO START, GIVEN ALL THE NUMBERS?**

**\$Value Indexes** are multi-trait selection indexes provided to simplify genetic selection decisions. \$Value Indexes estimate performance of the average future offspring of a sire compared to that of another sire, within the same breed. Producers should still scrutinize individual EPDs of desirable index sires to be certain all EPD values are within an acceptable range for their particular operation. Following is a list of \$Value Indexes that we provide in this catalog for the various breeds.

**ANGUS**

## The Hurdles

Sire prospects are carefully selected by some of the very best regional seedstock producers.

Bulls are subjected to a rigid health and vaccination protocol and must have a minimum station entry weight of 2.4 lb/day of age.

Bulls are verified free of lethal genetic defects.

Bulls are fed a forage-based (silage) development ration that expresses growth potential and promotes lean gain.

Bulls are evaluated for growth during a 112-day evaluation according to Beef Improvement Federation guidelines.

Bulls must meet structural, temperament, and breeding soundness requirements, as well as, grow at a minimum of 2.8 lb/day during the evaluation.

Only sire prospects that meet or exceed all requirements are offered for sale.

Mail bids may be sent to the sale manager, auctioneer, or ringmen, and will be handled with strictest confidence.

## **INSURANCE**

Representatives of livestock insurance companies will be present at the sale.

## **LIABILITY**

It is clearly understood that any person or persons attending this sale do so at their own risk. The Michigan Cattlemen's Association (MCA), Michigan State University (MSU), and the Bull Evaluation Station or their agents assume no liability, legal or otherwise, for the safety of the premises, the behavior of animals, or accidents that may occur. The MCA, MSU, and Bull Evaluation Station personnel act only in the capacity of agents in this sale. Any claims or adjustments must be made strictly between buyer and seller.

## **No Solicitation**

Except for consignors, represented breed associations, paid sponsors, MCA, or MSU, solicitation or material distribution on Station grounds is strictly prohibited without the written consent of the MCA/MSU Bull Evaluation Program Committee.

## **HEALTH AND MOVEMENT**

1. Bulls are sold under health regulations of Michigan.
2. All bulls have tested negative for bovine tuberculosis.
3. For bulls that are moved into the Modified Accredited Zone (MAZ), the State of Michigan recommends a movement certificate to add the bull to your herd inventory. ## **BREEDING SOUNDNESS EXAMINATION**

All bulls born prior to Feb 1, 2015 have passed a complete breeding soundness exam (BSE) as defined by the Society for Theriogenology. Bulls born between Feb 1, 2015 and March 31, 2015 have been subject to meeting all requirements of a BSE, except, the normal sperm morphology requirement was lowered to 50% (as compared to 70% for bulls born prior to Feb 1, 2015). As with all natural service sires, it is recommended that bulls born between Feb 1, 2015 and March 31, 2015 have a complete BSE before being exposed to females.

## **BREEDING GUARANTEE**

All animals sold are guaranteed to be breeders, if properly cared for and not allowed to run with females until they are at least 15 months of age. Any bull that settles at least one third of the healthy cows he covers will be considered a breeder. Any animal not complying with this breeding guarantee may be returned to the seller at the buyer's expense, and if in good condition and complying with the health requirements of the seller's state, shall entitle the buyer to a satisfactory adjustment. In the case of an animal claimed to be a non-breeder, the seller shall be entitled to 6 months following the return of the animal in which to demonstrate that the animal is in fact a sound breeder. Michigan State University, Michigan Cattlemen's Association, Plank Farm, United Producers Inc., or the Bull Evaluation Committee does not assume any liability for breeding guarantee. Any items not specifically mentioned will default to standard guarantee of the respective breed association.

## **CLAIMS FOR REFUND OR OTHER ADJUSTMENT**

All claims for adjustment or refund must be made in writing within 6 months of the sale or 3 months after the purchased animal reaches the age of 18 months, whichever occurs later. The return of the full purchase price will in any case be deemed full satisfaction and settlement.

## **REGISTRATION CERTIFICATES**

Breed registration certificates will be transferred to the buyer by the seller, and at the seller's expense. Please give the settling clerk the exact and complete name and address to which you wish to have your new bull transferred. Please note that EPDs will likely be updated from the time of sale catalog printing until registration papers are transferred.
